Note that this was early September and Mom was forgetful . . . and on "alot" of morphine

*PS Just going through all the emails from the musketeers in those days . . . am bored at caregiving . . .and internet comes and goes . . .*

Le, forgot to mention that we did 34 pages! Thanks again for all the stuff. Couldn't of done it without your help. Margaret & Lyn have seen it & said it's a treasure. Mom didn't want me to take it back! Silly.... Mom said that this has to stay in the Family. Saw her tonite, she's on alot of Morphine & forgets herself sometimes. You just have to agree with her. She did make sure that I take some food home though, so she scrounged around for some. Took some grapes from off the table. She just doesn't forget to feed he kids, no matter what! Gone to bed. bye
