

May 14, 2012

To Whom It May Concern;

Lionel Bouchard is a patient of mine who grew up in Elie Manitoba, approximately 30 minutes West of Winnipeg. He informs me that he lived there all his life, barring 2 ½ years (2008-2011) when he lived with a daughter in B.C. Since his return to Manitoba, he has been residing at [REDACTED]

Mr. Bouchard has expressed a strong desire to be transferred to a Manitoba Housing complex closer to the West End (on Country Club Street) at your earliest convenience.

He has explained all his reasons for transfer request to me, as indicated on the application form he tells me was submitted May 3, 2012.

As his attending Physician, I appreciate the validity behind the reasons for this request. I support the belief that a move closer to his former rural community and home, his life-long friends and family, and his Sister who resides in the West End, would potentially significantly improve his care, and his emotional and psychological well-being.

Yours truly,

Dr. Anthony Halynka
